A. 32 HOUR MEDIATION (SEPARATING COUPLES) TRAINING PROGRAMME

Family Mediation Overview

Family Mediation offers an alternative to conflict when families experience difficulties in relationships, particularly during or after separation and divorce. By managing conflict and offering an independent, privileged, and impartial process, it empowers (ex) partners to negotiate solutions which meet the needs of their family, especially those of their children. Mediation addresses the parenting issues which result from couple relationship breakdown and incorporates the views of children by indirect and direct consultation. Understandings reached together are written down to form a useful working document (Mediated Agreement) - the basis for future problem solving. It reduces both the emotional and financial cost of separation and divorce.

Ethos of the Training Programme

Throughout the delivery of the 32 hour Programme there is a strong emphasis on the fundamental underpinning principles of family mediation i.e. respect for the views and feelings of the participants, respect for the interests of the children and others involved, respect for an equitable outcome, respect for the values of equal opportunity regardless of race, gender, ethnicity, sexual orientation, age or disability and above all respect for the authority of the participants to make their own decision.

Course Validation

Our programme is approved by the College of Mediators (one of the lead bodies of the Family Mediation Council, UK) for both generic and specialist family mediation. The Mediators' Institute of Ireland has approved our course in the past and we are currently seeking renewal for both generic mediation training and their requirements for those seeking to offer separating couples mediation.

COST The cost of the 32 hour Programme is **£500** per person which includes assessment, training materials (electronic copies) and catering. Please note that course fees can be paid by instalment, by prior agreement with the Director prior to the course commencing.

FMNI require a minimum of 10 eligible participants, to ensure that delivery of the 32 Hour programme is financially feasible for the Charity to deliver.

Course Hours: 32 hours direct (6 days) + 20 hours minimum self-study including pre-course reading, completion of a Learning Journal and a drafting assignment (a Mediated Agreement).

Successful completion of the course requires full attendance and participation throughout.

The course will be assessed both through formal role play and written submissions. Attendance on all days of the course is mandatory and successful completion includes satisfactorily passing the assessed elements as well. Certificates of completion cannot be issued without full attendance.

It is important not to commence this course if you have any anticipation of difficulty in attending all of the modules. In exceptional situations, i.e. unforeseen circumstances, a trainee may be able to make up a missing unit or module at additional expense.

B. ACCREDITATION AS A FAMILY MEDIATOR

Regulation of Mediation

The field of mediation is not yet regulated by statute. However, there are professional bodies in the UK and Ireland who have established best practice standards for the training and practice of mediation. FMNI works in compliance with the Codes and Standards of both the College of Mediators (one of the lead bodies of The Family Mediation Council) and The Mediators' Institute of Ireland (MII). Although there is differing terminology, under both organisations there are three stages to becoming a fully accredited Family Mediator.

Pathway to becoming an Accredited Family Mediator

STAGE ONE – COMPLETION OF APPROVED TRAINING PROGRAMME

Stage 1 to becoming a Family Mediator requires successful completion of an approved course, such as FMNI's Foundation Training Programme (FTP) or the 32 hour Separating Couples Programme, leading to a **Certificate of Completion** from FMNI.

Note: At this stage those wishing to work in non-family cases can undertake The MII Certified Assessment Role Play with an independent Assessor (Check with MII re fees). Successful completion of this entitles an application to the MII for **MII Certified Mediator** status.

STAGE TWO – TRAINING PLACEMENT

After completion of an approved course, trainees are required to complete a minimum of 10 hrs **supervised and assessed training placement**, co-working with an experienced Mediator. The training placement should be completed within twelve months of completion of the FTP/32 hour Programme. Those who successfully complete this stage will be issued with a **Readiness to Practice Certificate**, which enables Mediators to practice independently in family mediation cases.

Note: FMNI offers a limited number of Stage 2 training placements each year to those who have successfully completed Stage One. Candidates can also organise their own training placement with another organisation with the option of the required supervision and assessment being provided by FMNI.

STAGE THREE – DEVELOPING A PRACTICE PORTFOLIO

Becoming an Accredited Family Mediator requires the successful completion of ongoing **Supervised Casework, Continual Professional Development (CPD) and the completion of a Practice Portfolio** of mediation cases submitted to either The College of Mediators UK or The Mediators' Institute of Ireland for independent assessment.

Note: FMNI uses a Panel of trained Mediators to deliver its service across Northern Ireland and invites new members to apply to join the Mediation Panel, as and when required. Panel members can use Supervised Casework for their Practice Portfolio.

PROFESSIONAL MEMBERSHIP & PROFESSIONAL INDEMNITY INSURANCE

Anyone interested in mediation can join the professional mediation bodies as a general member. However, candidates must have a Stage One Certificate and a Stage Two Certificate to Practice as a Mediator working with separating couples. Ongoing professional membership requires completion of a minimum number of cases per year, Continual Professional Development hours and evidence of receiving regular supervision and support from a qualified Professional Practice Consultant. The benefits of membership include access to a large and varied programme of group events and conferences, discounts on professional indemnity insurance, newsletters, sharing and learning groups, standard policy documents, practice documentation and inclusion on a website as licensed to practice mediation.
